## ❖CONTENTS❖

### 1 FRAME STRUCTURES

- 1.1 CRACK IDENTIFICATION IN STRUCTURES, P.G. Nikolakopoulos, D.E. Katsareas and C.A. Papadopoulos, Machine Design Laboratory, Mechanical Design Department, University of Patras, Greece ..... 1
- 1.2 AUTOMATIC COLLAPSE LOAD ANALYSIS OF REGULAR PLANE FRAMES USING THE FORCE METHOD, K.V. Spiliopoulos and P.G. Souliotis, Institute of Structural Analysis & Aseismic Research, National Technical University of Athens, Athens, Greece ..... 9
- 1.3 A SMALL COMBINATORIAL PROBLEM - FAILURE LOAD ANALYSIS OF RIGID FRAMES, A. Miyamura\*, Y. Kohama# and T. Takada#, \*Nagoya City Wemen's College, Chikusa, Nagoya, Japan, #Department of Architecture, Mie University, Tsu, Japan ..... 17
- 1.4 LATERAL STIFFNESS OF PLANE REINFORCED CONCRETE FRAME, A.B. Shuraim, Civil Engineering Department, College of Engineering, King Saud University, Riyadh, Saudi Arabia ..... 25

### 2 ANALYSIS AND DESIGN OF BRIDGES

- 2.1 RAPID PRELIMINARY ASSESSMENT OF BENDING MOMENTS IN BRIDGE DECKS, M.J. Ryall\* and N.Papassotiriou#, \*Department of Civil Engineering, University of Surrey, Guildford, England, O.T.M., Athens, Greece ..... 37
- 2.2 THE KANTOROVICH - FINITE DIFFERENCE METHOD AND ITS APPLICATION TO BRIDGE STRUCTURES, J.Q. Zhao, M.S. Cheung and S.F. Ng, Department of Civil Engineering, University of Ottawa, Ottawa, Canada..... 43
- 2.3 AUTOMATIC DESIGN OF PRESTRESSED BRIDGE DECKS, A. Samartin and M.A. Utrilla, Mecanica de los Medios Continuos, Teoria de Estructuras, Ciudad Universitaria, Madrid, Spain ..... 47
- 2.4 COMPARISON OF RESULTS FROM VIBRATION TESTING AND FINITE ELEMENT ANALYSIS OF A HIGHWAY BRIDGE, O.S. Salawu, C. Williams and P.J. Hewson, School of Civil & Structural Engineering, University of Plymouth, Plymouth, United Kingdom ..... 61
- 2.5 UPSTAND GRILLAGE MODELLING OF BRIDGE DECKS, D.L. Keogh and E.J. O'Brien, Department of Civil, Structural & Environmental Engineering, Trinity College, Dublin, Ireland..... 71
- 2.6 STRENGTHENING OF PUENTE DUARTE: A SUSPENSION BRIDGE IN THE DOMINICAN REPUBLIC, V. Peshkam and P.S. Fashole-Luke, L.G. Mouchel & Ptrs Ltd, West Byfleet, Weybridge, Surrey, England ..... 79
- 2.7 MODAL ANALYSIS OF AN ARCH BRIDGE: EXPERIMENT, FINITE ELEMENT ANALYSIS AND LINK, Y. Deger, R. Cantieni and S. Pietrzko, Swiss Federal Laboratories for Materials Testing and Research, EMPA, Dubendorf, Switzerland ..... 87

### 3 ANALYSIS AND DESIGN OF STEEL STRUCTURES

- 3.1 FINITE ELEMENT ANALYSIS TO DETERMINE WALKABILITY OF THIN-WALLED TRAPEZOIDAL STEEL SHEETS, F.Y. Gong and R. Baehre, Lehrstuhl für Stahl und Leichtmetallbau, University of Karlsruhe, Karlsruhe, Germany..... 95

3.2 COMPUTER AIDED DESIGN OF MODULAR STEEL INDUSTRIAL CRANE SUPPORT SYSTEMS, F. Papp, Department of Steel Structures, Technical University of Budapest, Budapest, Hungary.....	101
3.3 BEHAVIOUR OF EXTENDED END-PLATE CONNECTIONS: COMPARISON BETWEEN FINITE ELEMENT ANALYSIS AND EXPERIMENTAL RESULTS, B. Bose, S. Sarkar and M. Bahrami, Department of Civil Eng, Surveying & Building, University of Abertay Dundee, United Kingdom ...	107
3.4 ACCURACY AND RELIABILITY OF STRUCTURAL ANALYSIS AND STEEL DESIGN SOFTWARE, K.B. Rojiani*, M.W. White* and S.M. Hemler#, *Department of Civil Engineering, Virginia Polytechnic Institute and State University, Blacksburg, Virginia, United States of America, #Eastman Chemical Company, Kingsport, Tennessee, United States of America .....	117

#### **4 NONLINEAR ANALYSIS OF REINFORCED CONCRETE STRUCTURES**

4.1 NON-LINEAR FINITE ELEMENT ANALYSIS OF REINFORCED CONCRETE BEAMS WITH EMBEDDED STEEL PLATES, N.K. Subedi* and M.S. Abdullah#, *Civil Engineering Department, University of Dundee, Dundee, United Kingdom, #ZABBA Consulting Engineers, Kuala Lumpur, Malaysia .....	127
4.2 A SIMPLIFIED METHOD TO PREDICT THE NON-LINEAR RESPONSE OF REINFORCED CONCRETE STRUCTURES, L. Davenne and C. Brenet, Laboratoire de Mecanique et Technologie, ENS de Cachan, France .....	137
4.3 THREE-DIMENSIONAL NONLINEAR FINITE ELEMENT ANALYSIS OF CONNECTIONS BETWEEN STEEL BEAMS AND REINFORCED CONCRETE COLUMNS IN HYBRID STRUCTURES, K. Uchida*, A. Mikame* and H. Noguchi#, *Building Research Divison, Technical Research Institute, Fujita Corporation, Yokohama, Japan, #Department of Architecture, Chiba University, Chiba-City, Japan .....	143

#### **5 ANALYSIS OF REINFORCED CONCRETE PAVEMENTS**

5.1 FINITE ELEMENT ANALYSIS OF HORIZONTAL MOVEMENTS ON THE HIGHWAY PAVEMENTS DUE TO SHRINKAGE, Byungwan Jo and Dong-il Chang, Department of Civil Engineering, Han-Yang University, Seong-Dong Gu, Seoul , Korea, Korea .....	151
5.2 THE NUMERICAL ANAYSIS OF PRECAST CONCRETE PAVEMENT UNITS USED FOR AIRCRAFT RUNWAY INTERSECTIONS, J.W. Bull and C.H. Woodford, Department of Civil Engineering, University of Newcastle upon Tyne, Newcastle upon Tyne, United Kingdom .....	157

#### **6 REINFORCED CONCRETE STRUCTURES**

6.1 FINITE ELEMENT AND DIRECT DESIGN METHOD IN COMBINED TORSION, BENDING AND SHEAR OF REINFORCED CONCRETE, E.A. El Hussein, Institut für Statik, University of Braunschweig, Braunschweig, Germany .....	165
6.2 FINITE ELEMENT ANALYSIS OF FLUTED CONICAL SHELL ROOF STRUCTURES, A.B. Sabir* and A.I. Mousa#, *Division of Structural Engineering, University of Wales - Cardiff, Cardiff, United Kingdom, #University of Gaza, Egypt .....	173

6.3 FINITE ELEMENT ANALYSIS OF PUSH-OUT SPECIMENS, C. Androustos, E. Oguejiofor and M.U. Hosain, Department of Civil Engineering, University of Saskatchewan, Saskatoon, Canada.....	183
6.4 THE ANALYSIS OF STORAGE TANKS BY THE FINITE ELEMENT METHOD, A.B. Sabir* and A.I. Mousa#, *Division of Structural Engineering, University of Wales - Cardiff, Cardiff, United Kingdom, #University of Gaza, Egypt .....	189
 <b>7 MASONRY STRUCTURES</b>	
7.1 A NON-LINEAR MODEL FOR THE STUDY OF THE EFFECTS OF 2D-GROUND MOTIONS ON TALL STONE MASONRY STRUCTURES, S. Casolo, Dipartimento di Georisorse e Territorio, Universita di Udine, Udine, Italy .....	197
 <b>8 SHEAR WALL STRUCTURES</b>	
8.1 EFFECTS OF FLEXIBLE FOUNDATIONS ON THE FREE VIBRATIONS OF COUPLED SHEAR WALLS, G.Q. Li* and B.S. Choo#, *College of Structural Engineering, Tongji University, Shanghai, China, #Department of Civil Engineering, The University of Nottingham, Nottingham, United Kingdom .....	211
8.2 STATIC ANALYSIS OF MULTI-STIFFENED COUPLED SHEAR WALLS ON FLEXIBLE FOUNDATIONS, B.S. Choo* and G.Q. Li#, *Department of Civil Engineering, The University of Nottingham, Nottingham, United Kingdom, #College of Structural Engineering, Tongji University, Shanghai, China.....	217
8.3 THE ELASTO-PLASTIC ANALYSIS OF SPATIAL SHEAR WALL SYSTEMS BY A DISCRETE FORCE METHOD, D. Johnson and A. Nadjai, Department of Civil & Structural Engineering, The Nottingham Trent University, Nottingham, United Kingdom .....	229
8.4 NON-LINEAR BEHAVIOR OF STEEL PLATE SHEAR WALLS, M. Elgaaly*, Y. Liu*, V. Caccese**, C. Du#, R. Chen# and D. Martin#, *Civil and Architectural Engineering Department, Drexel University, Philadelphia, United States of America, **University of Maine, #formerly, University of Maine, Orono, Maine, United States of America .....	239
 <b>9 SIMULATION OF WIND FLOW AROUND BUILDINGS</b>	
9.1 COMPUTER SIMULATION OF 3-D WIND FLOW AROUND A BUILDING BY A TWO LAYER METHOD, Y.S. Zhou and T. Stathopoulos, Centre for Building Studies, Concordia University, Montreal, Canada.....	253
9.2 TALL BUILDING RESPONSE USING WIND TUNNEL FORCE SPECTRA TO MODEL THE ACROSS-WIND AND TORSIONAL COMPONENTS OF GUSTY WIND, C.E. Demers and P. Jayachandran, Department of Civil Engineering, Worcester Polytechnic Institute, Worcester, United States of America.....	265
 <b>10 GEOTECHNICAL ENGINEERING PROBLEMS</b>	
10.1 FINITE ELEMENT ANALYSES OF TIED-BACK RETAINING WALL, E. Comodromos, GEOGNOSIS S.A., Consulting Geotechnical Engineers, Thessaloniki, Greece .....	275

## **11 INTERACTION PROBLEMS**

<b>11.1 NONLINEAR BEHAVIOR OF REINFORCED CONCRETE SLABS ON TENSIONLESS ELASTIC FOUNDATION, A.A. Khathlan and M.S.A. Abbasi, Department of Civil Engineering, King Fahd University of Petroleum &amp; Minerals, Dhahran, Saudia Arabia.....</b>	<b>285</b>
--	------------

## ❖ PREFACE ❖

This volume contains some of the papers presented at The Second International Conference on Computational Structures Technology which was held in Athens from the 30th August to 1st September 1994. Other papers from the conference are published in:

- Advances in Parallel and Vector Processing for Structural Mechanics, Civil-Comp Press, 1994, ISBN 0-948-749-22-9
- Advances in Post and Pre-Processing for Finite Element Technology, Civil-Comp Press, 1994, ISBN 0-948-749-23-7
- Advances in Finite Element Techniques, Civil Comp Press, 1994, ISBN 0-948-749-24-5
- Advances in Simulation and Interaction Techniques, Civil-Comp Press, 1994, ISBN 0-948-749-25-3
- Advances in Non-Linear Finite Element Methods, Civil-Comp Press, 1994, ISBN 0-948-749-26-1
- Advances in Structural Optimization, Civil-Comp Press, 1994, ISBN 0-948-749-27-X
- Advances in Computational Mechanics, Civil-Comp Press, 1994, ISBN 0-948-749-28-8
- Artificial Intelligence and Object Oriented Approaches to Structural Engineering, Civil-Comp Press, 1994, ISBN 0-948-749-29-6
- Advances in Structural Engineering Computing, Civil-Comp Press, 1994, ISBN 0-948-749-31-8

We should like to thank all the authors for their contribution and in particular those who personally presented their papers in Athens. We should also like to thank the members of the Conference Editorial Board and the National Greek Advisory Board.

The members of the CST94 National Greek Advisory Board were: Professor DE Beskos, Patras; Professor J Katsikadelis, Athens; Professor A Kounadis, Athens; Professor A Liolios, Thrace; Professor P Panagiotopoulos, Thessaloniki; Professor G Tsamasphyros, Athens; and Professor J Vardoulakis, Athens.

The members of the CST94 Conference Editorial Board were: Professor A Armenakas, USA; Professor KJ Bathe, USA; Professor P Beckers, Belgium; Professor M Bendsoe, Denmark; Professor PG Bergan, Norway; Dr L Berke, USA; Professor M Bernadou, France; Dr JF Besseling, The Netherlands; Professor RI Borja, USA; Dr S Bostic, USA; Dr John W Bull, UK; Professor Cheng Gengdong, China; Professor Chang-Koon Choi, South Korea; Professor C Cinquini, Italy; Dr L Demkowicz, Poland; Dr PRB Devloo, Brazil; Professor I St Doltsinis, Germany; Professor J Donea, Italy; Professor I S Duff, UK and France; Dr A Eriksson, Sweden; Professor C Farhat, USA; Professor JE Flaherty, USA; Professor C Fleury, Belgium; Professor D Frangopol, USA; Professor RH Gallagher, USA; Professor G Gambolati, Italy; Professor L Gaul, Germany; Professor M Geradin, Belgium; Professor DE Grierson, Canada; Professor KK Gupta, USA; Professor P Hajela, USA; Professor E Hinton, UK; Professor M Hogge, Belgium; Dr PK Jimack, UK; Professor J Jirousek, Switzerland; Professor BL Karihaloo, Australia; Dr AI Khan, UK; Professor N Kikuchi, USA; Professor U Kirsch, Israel; Professor Dr M Kleiber, Poland; Professor S Kobayashi, Japan; Professor W B Kratzig, Germany; Professor YA Kuznetsov, Russia; Professor P Ladeveze, France; Professor K L Lawrence, USA; Dr SH Lee, USA; Professor P Leger, Canada; Professor AYT Leung, Hong Kong; Professor WK Liu, USA; Dr R K Livesley, UK; J Mackerle, Sweden; Professor G Maier, Italy; Dr J Malone, USA; Professor J Mandel, USA; Professor IM May, UK; Dr JJ McKeown, UK; Professor J L Meek, Australia; Dr DT Nguyen, USA; Professor A K Noor, USA; Dr B Nour-Omid, USA; Dr R Ohayon, France; Professor DRJ Owen, UK; Professor PY Papalambros, USA; Dr F Papp, Hungary; Professor KC Park, USA; Professor D Parsons, USA; Professor MS Pereira, Portugal; Professor J Periaux, France; Dr KG Prasad, USA; Professor E Ramm, Germany; Professor JN Reddy, USA; Dr LM Ribeiro, Portugal; Professor

JR Rice, USA; Professor E Riks, The Netherlands; Professor G De Roeck, Belgium; Professor G Rozvany, Germany; Professor A Samartin, Spain; Professor B Schrefler, Italy; Professor K Schweizerhof, Germany; Professor MS Shephard, USA; Professor Naruhito Shiraishi, Japan; Dr HD Simon, USA; Professor P Spanos, USA; Professor Dr Ing H Stein, Germany; Dr O Storaasli, USA; Professor KS Surana, USA; Professor P le Tallec, France; Professor G Thierauf, Germany; Dr G Vanderplaats, USA; Dr VB Venkayya, USA; Professor K S Viridi, UK; Dr M Walker, France and USA; Professor N-E Wiberg, Sweden; Dr JF Williams, Australia; Professor EL Wilson, USA; Professor W Wunderlich, Germany; Professor Yong Bin Yang, Taiwan; and Dr T Zimmermann, Switzerland,

This conference would not have been possible without the assistance of many people and their organisation. In particular, we should like to thank the sponsors: The Greek Association for Computational Mechanics (GRACM); The Greek Ministry of Culture; The General Secretariat of Research and Technology of Greece; The Tourist Organisation of Greece; The National Technical University of Athens; The University of Patras; The Democritus University of Thrace; The Evgenidis Foundation; and UNISYS Hellas.

The assistance of: the members of the Structural Engineering Computational Technology Research Group at Heriot-Watt University, Edinburgh; and the staff of the Institute of Structural Analysis and Aseismic Research, National Technical University of Athens is gratefully acknowledged. In particular, we wish to thank Dr Asad I Khan for his help during the early stages of the preparation of this conference.

We should particularly like to thank Professor Dimitri Beskos, President of the GRACM, for all the help he has given us during the planning and organisation of the conference.

We also wish to thank all at Civil-Comp Press for their help and perserverance in the realisation of this conference in particular: Maisie Sales and Szandra Köves. Finally we should both like to thank our research assistants in Edinburgh and Athens for their help and assistance during the editing and preparation of these conference proceedings. Without their help during the months leading up to this conference life would have been considerably more difficult and duller. In particular we should mention János Sziveri, Biao Cheng, Péter Iványi, Yannis Tsompanakis, Prodromos Psaropoulos and Nick Lagaros.

Barry Topping and Manolis Papadrakakis  
July 1994
