Preface

This volume comprises the Invited Lectures presented at The Sixth International Conference on Engineering Computational Technology (ECT 2008) held in Athens, Greece from 2 to 5 September 2008. The ECT conference series began in Edinburgh in 1998. The 2008 conference was held concurrently with The Ninth International Conference on Computational Structures Technology (CST 2008). Chapter 1 is the Plenary Lecture presented by Professor T.J.R. Hughes to open both conferences. We are grateful to the authors and co-authors of these Invited Lectures included in this volume. Their contribution both to the Civil-Comp conferences and this book is greatly appreciated.

Other papers presented at the conferences in 2008 are published as follows:
