

Computational Science, Engineering and Technology Series: 32

**Civil and Structural Engineering
Computational Methods**

Saxe-Coburg Publications on Computational Engineering

Trends in Parallel, Distributed and Grid Computing for Engineering

Edited by: P. Iványi and B.H.V. Topping

Substructuring Techniques and Domain Decomposition Methods

Edited by: F. Magoulès

Parallel, Distributed and Grid Computing for Engineering

Edited by: B.H.V. Topping and P. Iványi

Computational Methods for Acoustics Problems

Edited by: F. Magoulès

Mesh Partitioning Techniques and Domain Decomposition Methods

Edited by: F. Magoulès

Object Oriented Methods and Finite Element Analysis

R.I. Mackie

Programming Distributed Finite Element Analysis

R.I. Mackie

Computer Aided Design of Cable-Membrane Structures

B.H.V. Topping and P. Iványi

Domain Decomposition Methods for Distributed Computing

J. Kruis

Civil-Comp Press publications on Computational Engineering

Proceedings of the Second International Conference on Parallel, Distributed, Grid and Cloud Computing for Engineering

Edited by: P. Iványi and B.H.V. Topping

Proceedings of the First International Conference on Parallel, Distributed and Grid Computing for Engineering

Edited by: B.H.V. Topping and P. Iványi

Civil and Structural Engineering Computational Methods

Edited by

Y. Tsompanakis, P. Iványi and B.H.V. Topping

British Library Cataloguing in Publication Data

A catalogue record for this book is available from the British Library

Printed in Great Britain by Bell & Bain Ltd, Glasgow

Contents

Editorial	iii
1 Envisioning Engineering Computational Technology in the Coming Intelligence or Convergence Era A.K. Noor	1
2 Rheology and Simulation of Self Compacting Concrete Flow B. Patzák, L.N. Thrane and F. Kolarík	21
3 Neural Network-Based Techniques for Damage Identification of Bridges: A Review of Recent Advances S. Arangio	37
4 Optimizing the Impact of Pavement Maintenance Decisions on Road Network Sustainability A.P. Chassiakos, E. Konstantinou and N. Moschonas	61
5 Structural Optimization under Uncertainties: Understanding the Role of Expected Consequences of Failure A.T. Beck	89
6 Application of Genetic Algorithms to the Life-cycle Management Optimization of Civil and Marine Infrastructure Systems D.M. Frangopol and M. Soliman	117
7 Nature Inspired Algorithms for the Vibration Control of Beams with Piezoelectric Sensors and Actuators Y. Marinakis, M. Marinaki and G.E. Stavroulakis	129
8 Soft Computing Applications in Structural Dynamic Monitoring G. Quaranta and G.C. Marano	157
9 A Genetic Algorithm based Decision Support System for Railway Track Maintenance and Renewal Management H. Guler	171
10 Modelling Deterioration and Maintenance of Australian Low Volume Traffic Roads K.J. McManus	185

Editorial

This volume comprises the Invited Lectures presented at *The Fourteenth International Conference on Civil, Structural and Environmental Engineering Computing* (CC 2013) and *The Third International Conference on Soft Computing Technology in Civil, Structural and Environmental Engineering* (CSC 2013) held concurrently in Cagliari, Sardinia, Italy from 3-6 September 2013.

We are grateful to the authors and co-authors of the Invited Lectures included in this book. Their contribution to this conference and this book is greatly appreciated.

Other papers presented at these conferences are published as follows:

- *The Invited Review Lectures from CC 2013 and and CSC 2013 are published in:* Computational Technology Reviews, Volume 8, Saxe-Coburg Publications, Stirlingshire, Scotland, 2013.
- *The Contributed Papers from CC 2013 are published in:* Proceedings of the Fourteenth International Conference on Civil, Structural and Environmental Engineering Computing, B.H.V. Topping and P. Iványi, (Editors), (Book of Summaries with online delivery of full-text papers), Civil-Comp Press, Stirlingshire, Scotland, 2013.
- *The Contributed Papers from CSC 2013 are published in:* Proceedings of the Third International Conference on Soft Computing Technology in Civil, Structural and Environmental Engineering, Y. Tsompanakis, (Editor), (Book of Summaries with online delivery of full-text papers), Civil-Comp Press, Stirlingshire, Scotland, 2013.

We are grateful to Dawn Sewell for her administrative support before and during the conference.

**TECHNICAL
UNIVERSITY
OF CRETE**

Professor Y. Tsompanakis
Technical University of Crete
Chania, Greece

Dr P. Iványi
Pollack Mihály Faculty of Engineering
and Information Technology
University of Pécs, Hungary

**HERIOT
WATT
UNIVERSITY**

Professor B.H.V. Topping
University of Pécs, Hungary &
Heriot-Watt University, Edinburgh, UK
