

Computational Science, Engineering and Technology Series: 38

**Computational Techniques
for
Civil and Structural Engineering**

Saxe-Coburg Publications on Computational Engineering

Patterns for Parallel Programming on GPUs

Edited by: F. Magoulès

Multiscale Hierarchical Modeling of Hydrating Concrete

V. Šmilauer

Finite Element Analysis in Geotechnical Design

M. Šejnoha

Tall Buildings: Design Advances for Construction

Edited by: J.W. Bull

Developments in Parallel, Distributed, Grid and Cloud Computing for Engineering

Edited by: B.H.V. Topping and P. Iványi

Trends in Parallel, Distributed, Grid and Cloud Computing for Engineering

Edited by: P. Iványi and B.H.V. Topping

Civil and Structural Engineering Computational Methods

Edited by: Y. Tsompanakis, P. Iványi and B.H.V. Topping

Substructuring Techniques and Domain Decomposition Methods

Edited by: F. Magoulès

Computational Methods for Engineering Science

Edited by: B.H.V. Topping

Computational Methods for Acoustics Problems

Edited by: F. Magoulès

Mesh Partitioning Techniques and Domain Decomposition Methods

Edited by: F. Magoulès

Object Oriented Methods and Finite Element Analysis

R.I. Mackie

Programming Distributed Finite Element Analysis

R.I. Mackie

Computer Aided Design of Cable-Membrane Structures

B.H.V. Topping and P. Iványi

Domain Decomposition Methods for Distributed Computing

J. Kruis

**Computational Techniques
for
Civil and Structural Engineering**

Contents

Editorial	iii
1 Computational Issues in Multifield, Multiscale and Three-Dimensional Structural Engineering C.E. Majorana, V.A. Salomoni, G. Xotta, B. Pomaro and G. Mazzucco	1
2 Application of Soft Computing Techniques in Life-cycle Optimization of Civil and Marine Structures D.M. Frangopol and M. Soliman	43
3 Coupled Hygro-Thermo-Mechanical Analysis of Charles Bridge, Prague T. Krejčí, J. Šejnoha and M. Toesca	59
4 A Review of Model Updating Methods for Civil Infrastructure Systems M. Aghagholizadeh and F.N. Catbas	83
5 Stress Constraints in Compliance-Based Topology Optimization M. Bruggi	101
6 Numerical Modelling of the Dynamic Response of High-Speed Railway Bridges Considering Vehicle-Structure and Structure-Soil-Structure Interaction P. Bucinskas, L. Agapii, J. Sneideris and L.V. Andersen	125
7 Risk-Based Assessment and Lifetime Management of Existing Structures A. Chateauneuf	153
8 Incorporating Uncertainty in Vibration-Based Monitoring and Simulation E.N. Chatzi and M.D. Spiridonakos	175
9 Innovative Asset Management Tools for Sustainable Oil and Gas Pipelines M.S. El-Abbasy, T. Zayed and A. Senouci	199
10 Stability Investigations for Pressurized Membranes and other Optimized Structures A. Eriksson	233

11	Evaluation of the Plastic Hinge Length for Nonlinear Analysis of Reinforced Concrete Buildings A. Fiore, G. Quaranta and G.C. Marano	255
12	Application of Genetic Algorithms to Disaster Restoration under Uncertain Environments H. Furuta, K. Nakatsu and K. Ishibashi	281
13	Application of Soft Computing to Reinforced Concrete Beams Strengthened with Fibre Reinforced Polymers: A State-of-the-Art Review H. Naderpour and M. Mirrashid	305
14	Geometry Reconstruction based on Artificial Intelligence Techniques I.K. Nikolos	325
15	Structural Interaction between Frames and Infill Masonry Walls subject to Lateral Loads: A Review L. Pallarés and F.J. Pallarés	345
16	On the Modelling of Thin Walled Beams N.L. Rizzi	367
17	Multiscale Modelling of Deformable Porous Media with Large Contrasts in the Permeability using Homogenization E. Rohan, and V. Lukeš	389
18	Cold-in Place and Full Depth Reclamation with Foamed Asphalt S. Terzi, M. Saltan, E. Eriskin, S. Sargin Karahancer and B. Capali	417
19	Stress Constraints and Incompressible Materials in Topology Optimization: State of the Art and New Perspectives P. Venini	439
20	Scalable Algorithms for Inverse and Uncertainty Modelling in Hydrology V. Vondrak, S. Kuchar, M. Golasowski, R. Vavrik, J. Martinovic and M. Podhoranyi	467
	Author Index	487
	Keyword Index	489

Editorial

This volume comprises the invited lectures presented at at *The Fifteenth International Conference on Civil, Structural and Environmental Engineering Computing* (Civil-Comp 2015) and *The Fourth International Conference on Soft Computing Technology in Civil, Structural and Environmental Engineering* (Civil-Soft-Comp 2015) held concurrently in Prague, Czech Republic, from 1-4 September 2015. We are grateful to the authors and co-authors of the papers included in this volume. Their contributions to these conferences and this book are greatly appreciated.

We are especially grateful to the Faculty of Civil Engineering of the Czech Technical University in Prague for their co-operation in the organisation of this conference. In particular we should like to thank the Dean of the Faculty of Civil Engineering, Professor Alena Kohoutková and the Head of the Department of Mechanics, Professor Jiří Máca for their kind support and co-operation during the organisation of this conference.

Other papers presented at these conferences are published as follows:

- *The Invited Review Lectures from Civil-Comp 2015 and and Civil-Soft-Comp 2015 are published in:*
Computational Technology Reviews, Volumes 11 & 12, Saxe-Coburg Publications, Stirlingshire, Scotland, 2015.
- *The Contributed Papers from Civil-Comp 2015 are published in:*
Proceedings of the Fifteenth International Conference on Civil, Structural and Environmental Engineering Computing, J. Kruis, Y. Tsompanakis and B.H.V. Topping, (Editors), (Book of Summaries with online delivery of full-text papers), Civil-Comp Press, Stirlingshire, Scotland, 2015.
- *The Contributed Papers from Civil-Soft-Comp 2015 are published in:*
Proceedings of the Fourth International Conference on Soft Computing Tech-

nology in Civil, Structural and Environmental Engineering, Y. Tsompanakis, J. Krus and B.H.V. Topping, (Editors), (Book of Summaries with online delivery of full-text papers), Civil-Comp Press, Stirlingshire, Scotland, 2015.

We would like to thank Steven Miller for his care and attention in preparing these papers for publication.

Professor J. Krus
Czech Technical University in Prague
Czech Republic

Professor Y. Tsompanakis
Technical University of Crete
Chania, Greece

Professor B.H.V. Topping
University of Pécs, Hungary
& Heriot-Watt University, Edinburgh, U.K.
